

Air National Guard F-15EX Eagle II & F-35A Lightning II Operational Beddowns Environmental Impact Analysis Process

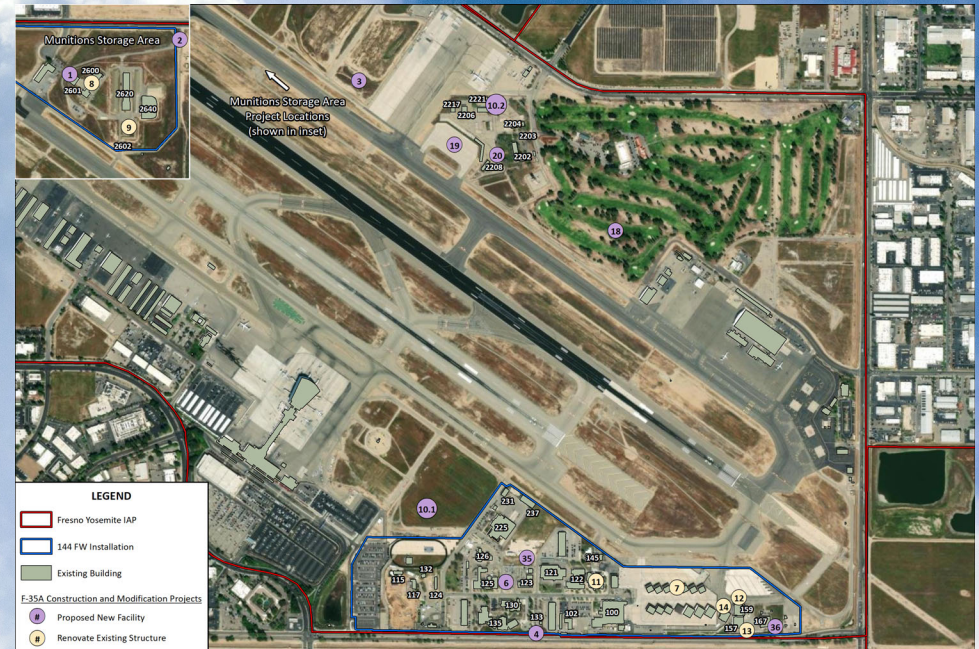

PROPOSED CONSTRUCTION AND MODIFICATIONS AT FRESNO AIR NATIONAL GUARD BASE AT FRESNO YOSEMITE INTERNATIONAL AIRPORT

While each of the three existing F-15C/D locations for the proposed beddown offer basic necessary facilities, no one location has all of the infrastructure and facilities to support the beddown, and the NAS Lemoore location has minimal existing infrastructure to support the beddown. To accommodate the F-15EX or the F-35A beddown, Fresno Air National Guard Base in Fresno, CA would require the facility construction and modifications displayed on the map. All construction activities would occur within the boundaries of the airport.

- | | | | |
|---|--|--------------------------------------|--|
| 1 - Construct Munitions Administration | 7 - Repair Airfield Pavements | 12 - Repair Small Maintenance Hangar | 18 - Construct Satellite Composite Support |
| 2 - Construct 3 Phase ECP - MUN'S Dakota Gate | 8 - Repair M and I | 13 - Repair Fuel Cell HVAC | 19 - Construct Alert Spots 5 and 6 |
| 3 - Construct Arm/Dearm Apron | 9 - ADAL Building 2600 | 14 - ADAL Alert Crew Readiness | 20 - Construct Alert Complex |
| 4 - Construct 3 Phase ECP - Main Gate | 10 (Option 1) - Construct Fire Station | 15 - Construct FMS Facility | 21 - Construct Utilities (Not Shown) |
| 5 - Construct Vehicle Maintenance (TBD) | 10 (Option 2) - Construct Fire Station | 16 - Construct WLT | |
| 6 - Construct Medical Training Facility | 11 - ADAL Squadron Operations | 17 - Construct CFT Facility | |
- Note: Project Locations are Notional
